Insights to Accelerate International Expansion

Our Mission: Help Manufacturers "Spend time *Selling* to Distributors versus *Searching* for Distributors"

New Retailer Database

Export Solutions has launched a new retailer database. This exciting tool provides instant information on 2,500 leading retailers in 96 countries. Subscribers track leading customers by banner, format and store count. The database supplies retailer financial information and latest news. Interested? See pages 2 and 3 for more information. Contact Export Solutions for a free sample retailer database access. We can help!

Global Retailer Coverage

2,500 retailers – 96 Countries

Looking for a few new customers? Export Solutions has launched a user friendly database, tracking more than 2,500 retail banners in 96 countries. The database extends through virtually every country in Europe and the Americas plus 17 countries in Asia Pacific and 11 in the Middle East. Features include excellent coverage of chain supermarkets, hypermarkets, clubs, cash and carry, and convenience formats. Solid initial reporting is supplied for drug store, natural food, and e-commerce channels. Our retailer database serves as a companion product to our distributor database which tracks 8,600 distributors in 96 countries.

Top 100 Retailers Worldwide

Our database provides complete coverage of the top 100 retailers worldwide. This provides up to date information for all local banners of Walmart, Carrefour, Kroger, Tesco, Casino, Auchan, Costco and many more. Another attractive benefit is "one click access" to retailers' web sites and latest news. Subscribers can directly access retailer financial reports and investor presentations for larger, publicly traded companies.

23 Retailers Per Country

Many companies market information on the top 5 retailers that everyone knows. Export Solutions recognizes that many export brands depend on many small to mid-size retailers specializing in gourmet products or "alternate" channels. For example, we track 54 UK retailers, 47 in Japan, 50 in Mexico and 78 in Canada. For USA subscribers, information is shared on more than 335 customers!

Valuable Management Tool

All managers complete reports requiring up to date information for key customers. Information for the world's retailers is only two minutes away with access to our retailer database. Brand owners must move beyond containers sold measurements to country level "Listing Maps." Listing Maps capture your brands' authorized assortment, by customer. This allows export managers to work with distributors to fill in the "white space" gaps in every country.

Special Offer – Act Now!

An annual subscription to the retailer database is \$495. This supplies one year, unlimited access to more than 2,500 retailers in 96 countries. In addition, subscribers may receive annual access to both our retailer and distributor databases for \$1,275, a savings of almost \$200. Note: special pricing for government trade organizations.

FAQ's – Retailer Database

Why did you create the retailer database?

Export managers dedicate a lot of time to researching countries, retailers and preparing business plans. A standard KPI measure is tracking product listings for key customers. I believe that our industry could benefit from a global retailer database to instantly locate retailers and their store counts in 96 countries. The retailer database is a logical extension of our leading distributor database which has helped more than 3,000 companies build export sales during the last 10 years.

What is your geographic coverage?

96 of top 100 GDP countries worldwide. This includes most Asian, Middle Eastern, and European countries. Our database covers every country in the Americas. In Africa, we cover South Africa.

What is your format coverage?

Excellent coverage of chain supermarkets, hypermarkets, clubs, cash and carry, and convenience formats. Solid initial coverage of drug stores, natural food stores, and e-commerce channels. Our database does not cover DIY/hardware, toy, office, liquor, or sporting goods channels.

Retailer database: featured info

Profile – Retailers profile and link to their internet home page.

Formats – Retailer's stores segmented by format and banner.

We track supermarkets, hypermarkets, cash and carry, convenience stores, discounters, drug stores, natural food stores, and e-commerce retailers.

News – Latest retailers' news. In some cases (Asia), we substitute a link to the retailer's latest promotional flyer.

Financial – Many leading retailers are publicly traded. A link is provided to their latest financial results. We do not offer estimated financial information for privately held or family owned retailers.

How is your coverage of global retailers?

We offer total coverage for top 100 global retailers. This includes all of their branches and banners. Searchable! Use filters to research Walmart, Costco, Carrefour, Tesco, Metro, Casino presence by country. Database covers retailer's total store outlets as well as a breakout by banner and format.

What can I use the retailer database info for?

- Obtain an instant snapshot of an average of 23 retailers per country for 96 countries.
- Track presence of global retailers like Walmart, Carrefour, and Metro AG.
- Create country specific listing maps where distributors measure brand authorization by retailer.
- Conduct home office based international category reviews and price checks from retailers' e-commerce sites (not all retailers).
- Prepare annual reviews and reports with up-to-date information on leading retailers and channels.

Searchable

The database offers filters allowing you to search by country, format, or retailer name. You can also use a combination of filters for your research.

Can I get a free sample of the retailer database?

Sure! Check www.exportsolutions.com for a complete profile of United Kingdom retailers.

Do you provide retailer's annual sales or market share information?

Accurate annual sales information is available through the financial link for publicly traded companies. We do not provide estimated financial information for privately held and family owned retailers. Channel blurring occurs between supermarket, convenience, e-commerce, and even natural food operators. We do not provide market share due to difficulty to accurately isolate and define channel market share information, particularly with so many privately held retailers.

How accurate is the retailer data?

Export Solutions' retailer database is updated weekly, so information is highly accurate. Retailer names, web sites, and formats rarely change. This makes the database 99% accurate at the company level. New stores open every day, resulting in store counts that may be 95% accurate. We intend to update store counts on a regular basis.

How much does retailer database access cost?

An annual subscription to the retailer database is \$975. This supplies one year, unlimited access to more than 2,500 retailers in 96 countries. Special offers available for our distributor database customers. Note: special pricing for government trade organizations.

How do I access the retailer database?

Visit www.exportsolutions.com and click the retailer database page. You can place a subscription or individual continent (i.e. Europe) into a shopping cart. Register and check out via credit card. The process takes two minutes and we automatically send you an invoice.

About Export Solutions

Export Solutions was founded in 2004 and is based in Atlanta, Georgia in the USA. Export Solutions serves as a leading provider of business intelligence to the food and consumer goods industries. Our distributor database covers 8,600 distributors in 96 countries and has been used by more than 3,000 clients. Our *Export Express* newsletter has a circulation of 8,700 and is viewed as an important source of insights, strategies, and templates for international development. www.exportsolutions.com.
